Guest View

When you first enter the site, you are interacting with it as a guest, and you have access only to certain feature. You can only navigate to home and project page, and you don't have access to profile and **submit/create-project** pages.

Landing/Home page

1. App icon

You can click it and navigate to home page in its original state.

2. Login button

You can click it to login.

3. Search box

Here you can type a key word. Then the page refreshes and shows only the projects with the keyword either in their title or in their topic.

4. Side/Topics bar

Here you can find projects sorted accordingly to their topics. If more than 5 projects belong in a specific topic then the side bar provides you a **show more** option that finds all the projects of this topic.

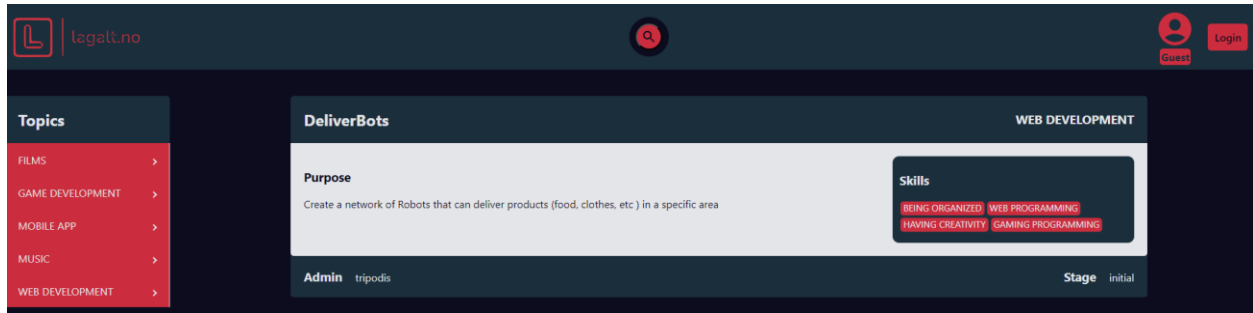

5. Project

You can see some details about the project such as title, admin, topic and stage but more info is provided inside the project page. You can navigate there by clicking the upper blue bar of the project.

6. Profile icon

If you click the profile icon, then because you are simply a guest and you haven't provided your credentials, the site redirects you to home page. Same logic applies when you are trying to visit another one's profile.

Project page

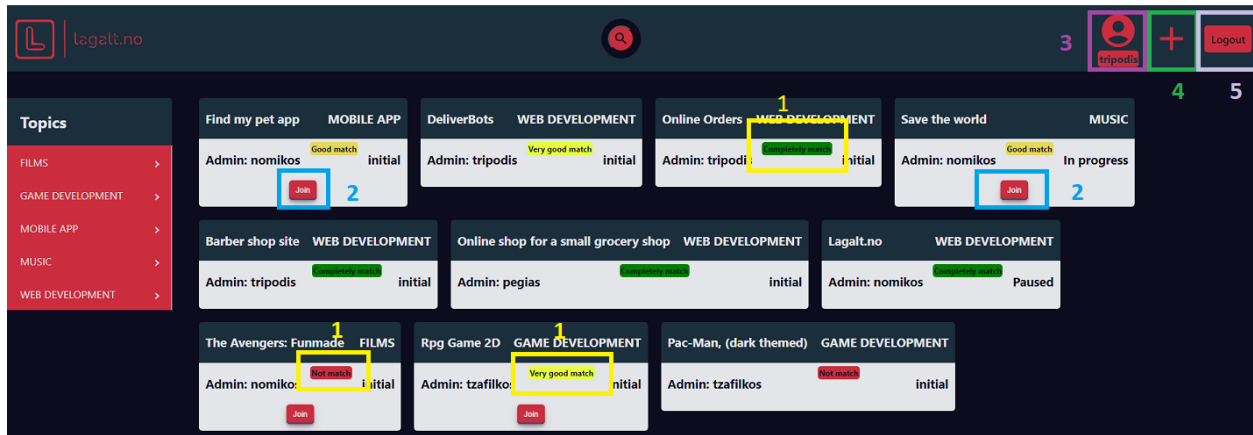

Here you can see all the information about the project. New details that appear is the purpose of the project which is a small description of it and the required skills of it.

User View

Once registering, or logging throw an existing account then your interaction with the app differs. Apart from the guest features, you now have new ones and authorization to view the rest of the pages.

Landing/Home page

1. Compatibility

A label alerts you on how compatible you are based on your profile skills and the project ones. It scales throw **red "Not match"** if you don't have any of the required skills, to **green "completely match"** if you have all of them.

2. Join button

If clicked a request is being sent to the admin of the project. Can also be found on the project page.

3. Profile icon

It's updated now and displays your username. Navigates to your profile page.

4. Create/plus button

Navigates to **submit/create-project** page.

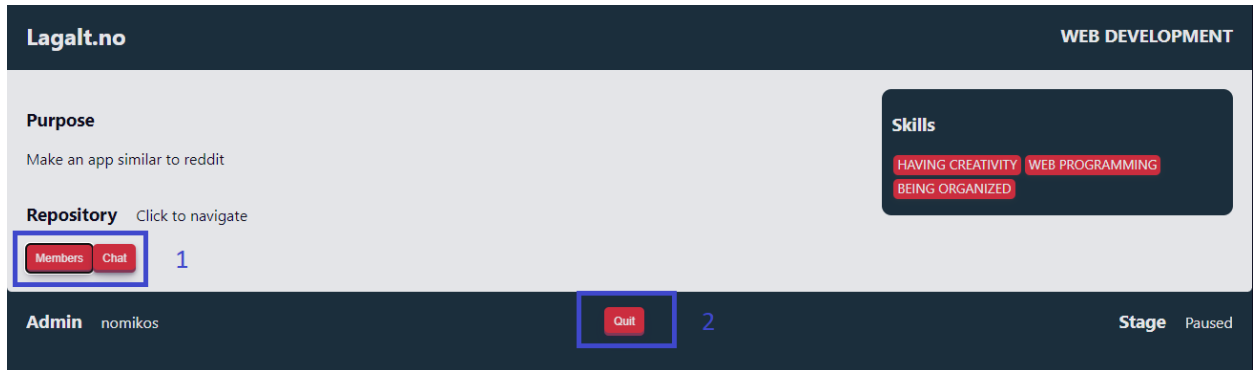

5. Logout button

Since you are logged in, you save the option to log out at any time. If you do so, then once again you 'll be redirected to home page as guest.

Project page

Now will see the project page from member's and admin's view.

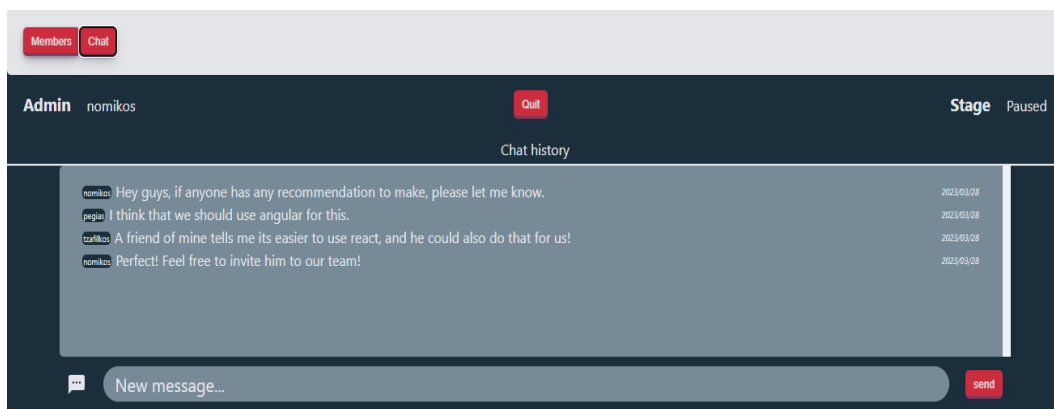

a. Member's view

1. Members and chat buttons

You can see the members of the project. Each name redirects you to this specific profile.

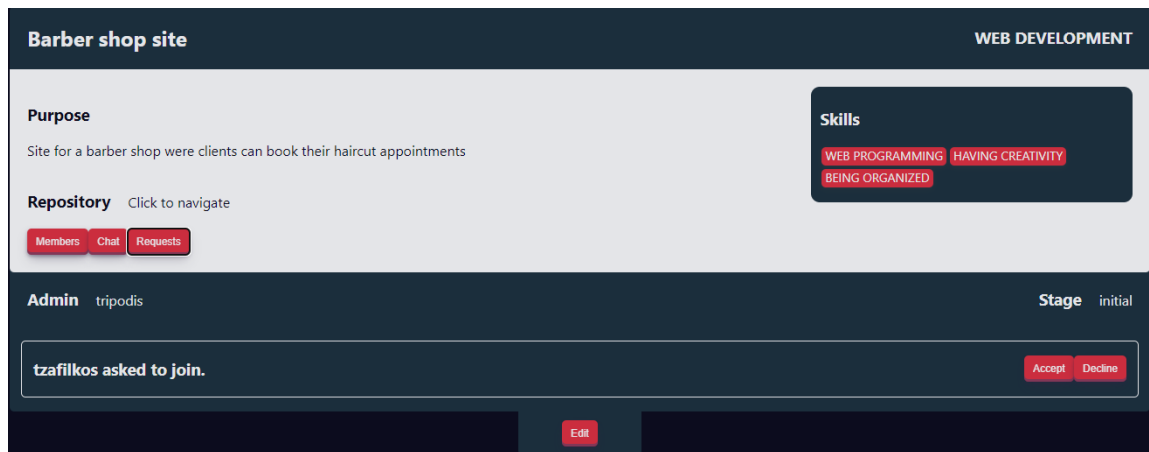

Here you see the chat history and chat with other members.

2. Quit button

Provides you the option to quit from the project.

b. Admin's view

1. Request button

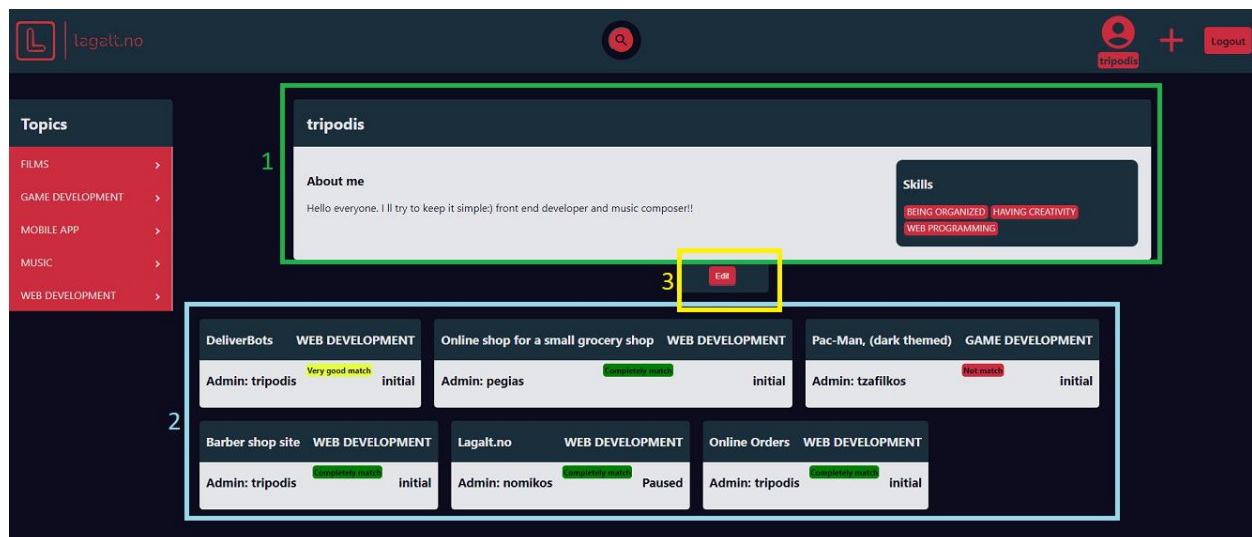

In admin's view, there is the option to see the requests that are pending and decide where to accept or reject them. You can check the profile that sent the request by clicking its user's name.

2. Edit button

Since you are an admin, you can edit the project. Redirects you to **submit/create-project** page.

Profile page

This is your profile page. All your personal information is stored here, available for you to see them and edit them.

1. Basic personal information

Here you can see all your basic information such as your username, a description about you and your skillset.

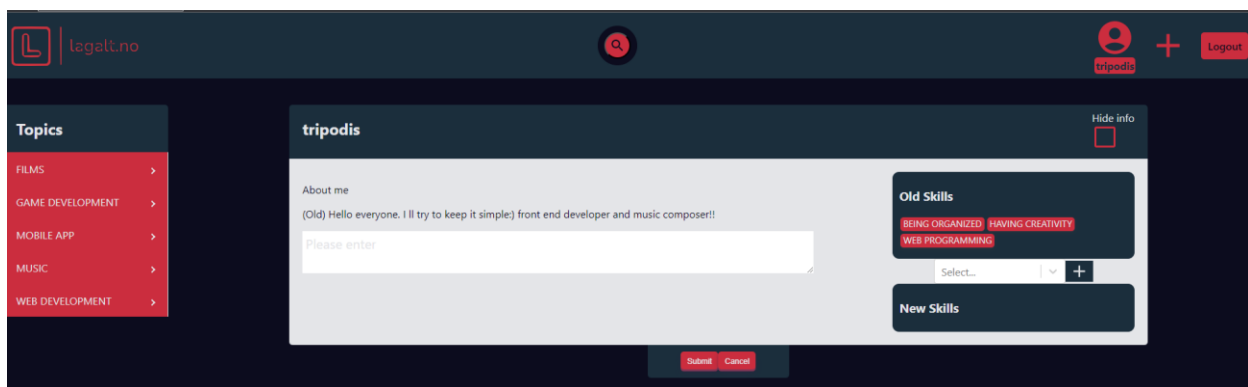

2. Projects area

Here you can see all the projects that you are participating either as an admin, or just a simple member.

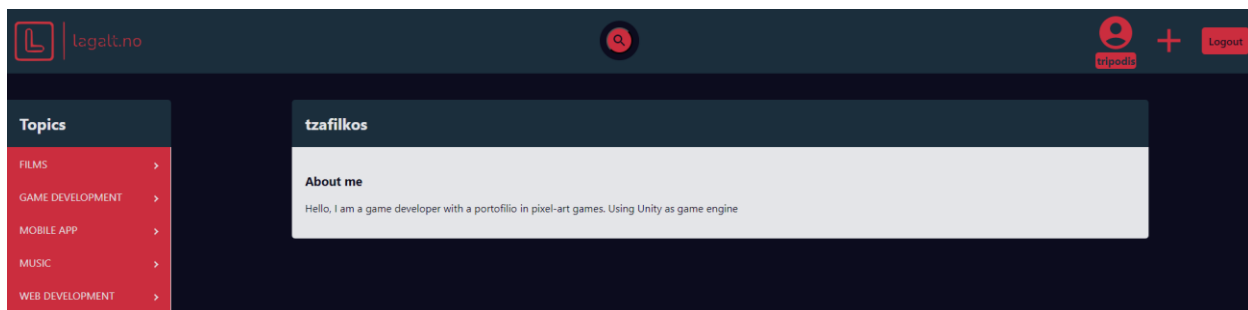

3. Edit button

Click it to edit your profile.

Edit my profile

You can edit your description, your skillset by adding new ones or removing existing ones or you can choose to hide your information from others. Below you can see a user's profile who choose to hide his personal information.

As you can see the only visible details are username and description.

Submit/Create-Project page

If you are logged in you are able to create your own project. You navigate to **Submit/Create-Project** page by clicking the plus icon on the upper navigation bar.

The screenshot shows the 'Submit/Create-Project' page. The header includes the 'lagatt.no' logo, a search icon, and a user profile with a plus icon and a 'Logout' button. The left sidebar lists topics: FILMS, GAME DEVELOPMENT, MOBILE APP, MUSIC, and WEB DEVELOPMENT. The main form area contains five numbered fields: 1. Project Title (text input), 2. Purpose (text input), 3. Repository (text input), 4. Topic (dropdown menu), and 5. Skills (dropdown menu). At the bottom, there are 'Submit' and 'Cancel' buttons. The form also shows 'Owner: tripodis' and 'Stage: Initial'.

1. Project title

Type you project title here.

2. Purpose

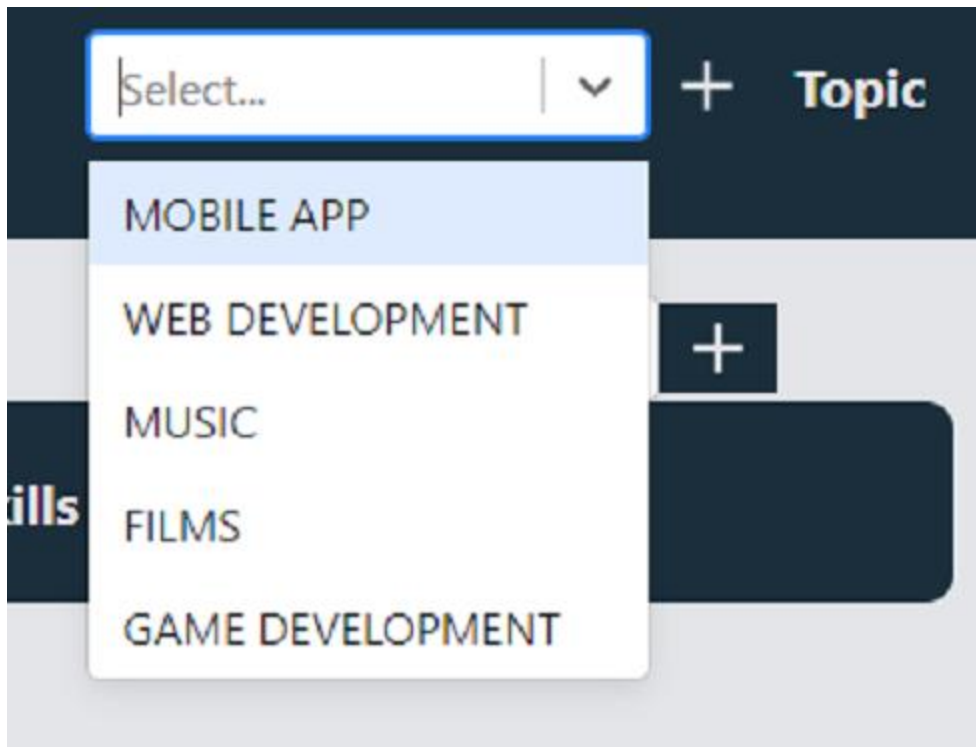

Type a few details about your project here.

3. Repository

Here you can insert the link to your online repository if you have one. Then people can press on that and redirect to your repository immediately.

4. Topic

Here you select a topic for you project either by selecting one,

or by creating a new one by pressing the + icon.

If you pressed + to create a new one, you should afterwards press submit to confirm your action.

Then you should see a correct icon inside the red circle and your new topic would be inside the select options. Choose it to finish the process.

5. Skills

Here the logic applied is the same as the one described for choosing a topic.

Edit my project

This is form for editing your project.

The screenshot shows the 'Edit my project' form in the tagalt.no application. The interface has a dark theme with red accents. On the left is a sidebar with a 'Topics' menu containing 'FILMS', 'GAME DEVELOPMENT', 'MOBILE APP', 'MUSIC', and 'WEB DEVELOPMENT'. The main form area contains the following fields and sections:

- Project Title (Old) Online Orders:** A text input field with the placeholder 'Please enter'.
- Topic:** A dropdown menu currently showing '(Old) WEB DEVELOPMENT'.
- Purpose:** A section with the subtitle '(Old) Creating an app that connects users and stores.' and a text input field with the placeholder 'Please enter'.
- Repository:** A section with the subtitle '(Old)' and a text input field with the placeholder 'Please enter'.
- Owner:** A dropdown menu showing 'tripodis'.
- Stage:** A dropdown menu showing 'Select...' with '(Old) initial' as a hint.
- Skills:** A section titled 'Old Skills' containing two red tags: 'WEB PROGRAMMING' and 'BEING ORGANIZED'. Below it is a 'New Skills' section with a 'Select...' dropdown and a '+' button.

At the bottom of the form are two buttons: 'Submit' and 'Cancel'.

You can edit every detail of the project. If you choose not to change for example the purpose of the project, then it keeps its previous text.

By clicking submit button the action is completed, the project is updated and you navigate to project page where you can see it.

By clicking cancel, you navigate again to the project page and none of the details of the project changed.
